ASTON MARTIN RESIDENCES MIAMI ADDS PRIVATE SUPERYACHT MARINA TO IMPRESSIVE REAL ESTATE DEVELOPMENT

Aston Martin and its partner G&G Business Developments announced the addition of a superyacht marina to the already impressive facilities available to owners and their guests at the Aston Martin Residences, Miami. With no bridges to the ocean, the full-service marina is just minutes from the open Atlantic and an easy sail from the Florida Keys, with Key Biscayne, Fisher Island, Miami Beach and Bal Harbour all nearby. At 490 linear feet with a draft depth of 15 feet, the marina can accommodate larger yachts comfortably. Offering far more than just a berth with full security and privacy, the Aston Martin Residences butler service will take care of everything, ensuring a stress-free experience for owners, captains and their crew. ■
