Aston Martin Residences Opens New Superyacht Marina In Time For The Super Bowl In Miami

Bill Springer Senior Contributor
Boats & Planes

Bill Springer would rather be on a superyacht. And he often is.

The new Aston Martin Residences in Miami have over 400 feet of superyacht dock space
ASTON MARTIN RESIDENCES

The new Aston Martin Residences tower that's being built in downtown Miami already has sports car owners salivating at the prospect of living in a modern, waterfront tower that's as stylish as a 715-Horsepower Aston Martin DBS Superleggera.

And now that the builder has just added a brand new superyacht marina to the list of amenities that owners and guests can enjoy there, I can only imagine the superyachts that will be docked there this weekend for the Super Bowl.

All of the Residences are designed to offer views of Miami, Biscayne Bay, Government Cut and the open ocean, and since there aren't any bridges blocking easy access to the open ocean, the tower's downtown location is perfectly suited to catering to the special needs of superyachts.

An Aston Martin supercar was on site for the opening of the marina of course.

In fact, the full-service marina is just minutes from the open Atlantic and an easy sail from the Florida Keys, Key Biscayne, Fisher Island, Miami Beach and Bal Harbour and beyond

At 490 linear feet with a draft depth of 15 feet, the marina can accommodate superyachts big as Jerry Jones's 357-foot-long superyacht *Bravo Eugenia* that's in Miami for the Super Bowl this weekend. And according to the developer, the marina offers more than just a place to tie up your yacht. In addition to privacy and security, the Aston Martin Residences butler service will take care of everything, ensuring a stress-free experience for owners, captains and their crew.

Even a superyacht will be dwarfed by the 66 story Aston Martin Residences tower under construction ... [+]

German Coto, CEO of G&G Business Developments, "As the development is right on the river with direct access from the sea, it made sense that owners and their guests may wish to birth their superyachts right outside their properties. With the increasing size of superyachts, we're excited to be able to offer our residents large yacht berths for major vessels including yachts over 300 feet. We're also focusing on our green credentials, protecting and restoring marine ecology to safeguard the wildlife and conserve the stunning location."

"Every aspect of the Aston Martin Residences at 300 Biscayne Boulevard Way has been carefully considered to meet the needs of owners, from the 42,275 square feet of sky amenities to the private butler service offering personal support and now the addition of the superyacht marina."

The marina at the Aston Martin Residences will be available to owners when the development completes in 2022. And the marina is open now.

The residences and penthouses, which range from 700 to 19,000 square feet, are priced from \$750,000 to \$50 million. That's a bar compared to what 300 foot long superyacht costs!
